

# Parallel DWARF Processing Outbrief

Ben Woodard

Josef Burger

Jonathan Anderson

---

Not sure if time to process  
is disk bound or  
processing bound

# How to make it faster

Dyninst and other tools reads entire data set.

Low level libs fast already

Reorder DWARF in linker for faster processing - difficult to push upstream

Investigate `.gdb_index` like indexes to accelerate finding most important info

ABI relevant info

Other kinds of index or maps.

# Thank you

Red Hat is the world's leading provider of enterprise open source software solutions. Award-winning support, training, and consulting services make Red Hat a trusted adviser to the Fortune 500.
